DETAILED ACTION

Allowable Subject Matter

Claim 1 is allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or make obvious the claimed limitation of a lens holding structure for wall-mounted surveillance camera having a lens carrier which has a lens carrier having an upper part extended through the round opening of a fixing ring and is provided along an outer peripheral wall of the upper part with an annular groove, which is invisibly located at an inner side of the fixing ring, and that the lens carrier is prevented from separating from the fixing ring by radially extending three equally spaced adjusting screws through the fixing ring and the annular groove.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Matko et al. (US 6762790 B1) and Tatewak et al. (US 2003/0103160 A1) shows the general state of the prior art.
